Safety Data Sheet

Section 1 - Chemical Product and Company Identification

Product Name: Duratray II Powder Green

Company Identification:

Reliance Dental Mfg., LLC. 5805 W. 117th Place Alsip, IL 60803

For Product Information, call: 708-597-6694 For Medical Information, call: 800-535-5053

Section 2 - Hazards Identification

Classification of the substance or mixture

Hazard Class – Physical, Health, Environmental Eye Damage/Irritation

OSHA Defined Hazards

Combustible dust, may form combustible dust concentrations in air, explosion hazard

Label Elements - Pictograms, Signal Word, Hazard Statements, Precautionary Statements, & Supplemental Information

Signal Word Warning

Signal Word Warning Hazards Statements

H320 Causes eye irritation

Precautionary Statements-Prevention, Response & Disposal

P240 Ground and bond container and receiving equipment
P264 Wash hands and exposed skin thoroughly after handling
P305+P351 IF IN EYES: Rinse continuously with water for several
+P338 minutes. Remove contact lenses if present and easy to do continue rinsing
P337+P313 Get medical advice/attention

Section 3 - Composition, Information on Ingredients

Chemical Name	Cas No.	Weight-%	GHS Ratings
P(MMA/EA)	9010-88-2	50-60	Eye Damage/Irritation 2B (H320)
Limestone	1317-65-3	20-30	
Polymethyl Methacrylate	9011-14-7	10-20	Eye Damage/Irritation 2B (H320)

2B 2B

_

Section 4 - First Aid Measures				
General advice	Provide the S	SDS to medical personnel for treatment.		
Inhalation:	Remove victi	m to fresh air. Seek immediate medical attention.		
Eye Contact:		ets in the eyes, flush with lukewarm water for at least 15 minutes. If urs, contact a physician.		
Skin Contact:	Rinse thoroughly with lukewarm water, followed by a thorough washing of the affected area with soap and water. If irritation, redness or swelling persists, contact a physician immediately.			
Clothing:	Remove cont	taminated clothing, wash thoroughly before reuse.		
Ingestion:	If ingested, do not induce vomiting. If product has been swallowed, drink plenty of water or milk IMMEDIATELY. If the patient is vomiting, continue to offer water or milk. Never give anything by mouth to an unconscious person. Provide an estimate of the time at which the material was ingested and the amount of the substance that was swallowed. Get medical attention immediately.			
	S	ection 5 - Fire Fighting Measures		
Suitable Extinguishing Media: Water, Chemical (alcohol-resistant) foam, dry chemical, or carbon dioxide.				
Unsuitable Extinguishing Media:		Water may not be effective in extinguishing this fire.		
Specific Hazards Arising from the Chemical: Polymers are combustible dusts, care should be taken to avoid creating explosive concentrations in the air. Follow grounding and bonding procedures.				
Special Fire Fighting Procedures:		Avoid extinguishing methods, which may generate dust clouds. Water stream can disperse dust into air producing a fire hazard and possible explosion hazard if exposed to ignition source. Firefighters should wear self-contained breathing apparatus.		
Protective Equipment and Precautions for Firefighters: Polymer dust is combustible. The explosive limits of the polymer particles suspended in air are approximately those of coal dust. Polymers are sensitive to static discharge, follow grounding and bounding procedures. Polymers are not sensitive to mechanical impacts.				
Section 6 - Accidental Release Measures				

Personal Precautions, Protective Equipment and Emergency Procedures

Personal Precautions	Before cleaning any spill or leak, individuals must wear appropriate		
	Personal Protective Equipment that is specified in section 8. Keep		
	airborne particulates at a minimum when cleaning up spills. Deny		
	entry to all unprotected individuals. Remove any contaminated		
	clothing and wash thoroughly before reuse.		

Evironmental Precautions	Extinguish all ignition sources. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water. US regulations (CERCLA) require reporting spills and releases to soil, water and air in excess of reportable quantities. The toll free number for the US
	Coast Guard National Response Center is (800)424-8802.

Methods and Material for Containment and Cleaning Up

Methods for ContainmentPrevent further leakage or spillage if safe to do so. Dike and
contain spill with inert material (e.g. sand or earth). May
contaminate water supply.Methods for Cleaning UpMaximize ventilation (open doors and windows) and secure all
sources of ignition. Use good, local ventilation with a minimum
capture velocity of 100 ft/min (30 m/min) at point of product
release. Place into appropriate closed container(s) for disposal in
accordance with local, state and federal regulations. Wash all
affected areas with plenty of warm water and soap. Not a RCRA
Hazardous waste.

Section 7 - Handling and Storage

PRECAUTIONS FOR HANDLING Advice on Safe handling:

Use in well ventilated areas. Avoid contact with skin, eyes and clothing. Avoid breathing dust. Use good personal hygiene and housekeeping. Avoid prolonged contact with the product. Use in a well-ventilated location (e.g., local exhaust ventilation, fans). After use, wash hands and exposed skin with soap and water. Do not eat, drink or smoke while handling product.

Conditions for Sate Storage, Including any Incompatibilities Storage conditions: Store containers in a cod

Store containers in a cool, dry location, away from direct sunlight, heat, sparks, flame, other light sources, or sources of intense heat. The temperature should remain at or under 72°F (22°C) at all times. Storing above recommended temperature will cause product performance issues. Store in accordance with National Fire Protection Association recommendations. Observe all label precautions until the container is cleaned, reconditioned or destroyed.

Incompatible Materials:

Strong oxidizers, strong oxidizing agents

Section 8 - Exposure Controls, Personal Protection

Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits
P(MMA/EA) 9010-88-2			
Limestone 1317-65-3	15 mg/m3 TWA (total dust) 5 mg/m3 TWA (respirable fraction)		NIOSH: 10 mg/m3 TWA (total dust) 5 mg/m3 TWA (respirable dust)
Polymethyl Methacrylate 9011-14-7			

Engineering Controls	Use local explosion-proof ventilation that is adequate to keep employee exposure to airborne concentrations below exposure limits. Please refer to the ACGIH document, Industrial Ventilation, A Manual of Recommended Practices, most recent edition, for details.
Personnel Protective Equipment (PPI	E)
Respiratory Protection	A respirator should be worn whenever workplace conditions warrant

A respirator should be worn whenever workplace conditions warrant use of a respirator. If dust conditions are present, a N95 respirator dust mask is required. None required if airborne concentrations are maintained below any exposure limit that may be listed above. If necessary, use only respiratory protection authorized per U.S. OSHA's requirement in 29 CFR §1910.134 or other appropriate governing standard.

Eye/Face ProtectionWear safety glasses, chemical goggles when splashing is possible,
when dealing with this materials. If necessary, refer to 29 CFR
§1910.133, or other appropriate governing standard. Ensure that
an eyewash station, sink or washbasin is available in case of
exposure to eyes.

Skin and Body ProtectionComplete suit protecting against chemicals, the type of protective
equipment must be selected according to the concentration and
amount of the dangerous substance at the specific workplace.
Handle with gloves. Gloves must be inspected prior to use. Use
proper glove removal technique (without touching glove's outer
surface) to avoid skin contact with this product. Dispose of
contaminated gloves after use in accordance with applicable laws
and good laboratory practices. Wash and dry hands.

Full Contact:
Material:Splash Contact:
Material:Material:Nitrile rubberMinimum Layer thickness:0.4 mmBreak through time:480 min.General Hygiene ConsiderationsHandle in accordance with good industrial h

Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly after handling. An eyewash station and a safety shower are recommended. Food, beverages, and tobacco products should not be carried, stored or consumed where this material is in use. Wash hands thoroughly before eating, drinking, or smoking.

Section 9 - Physical and Chemical Properties

APPEARANCE: ODOR: FLASH POINT: FLAMMABLE LIMIT (AIR VOLUME %) AUTOIGNITION TEMPERATURE: EVAPORATION RATE BOILING RANGE (LOW-HIGH) SPECIFIC GRAVITY:

Green powder. Faint odor in bulk. 482°F, 250°C 0% N/A No data available. N/A 0.00

Section 10 - Stability	/ and Reactivity
------------------------	------------------

MATERIAL STABILITY: Stable **INCOMPATIBILITY (MATERIALS TO AVOID):** Strong oxidiziers **POSSIBILITY OF HAZARDOUS REACTIONS:** Hazardous polymerization will not occur.

HAZARDOUS DECOMPOSITION PRODUCTS: Methacrylate Monomer and Oxides of Carbon when burned.

Section 11 - Toxicological Information

MIXTURE TOXICITY

Component Toxicity

Target Organs:

Eyes, Skin, Respiratory System

Effects of Overexposure:

Inhalation:	No data found.
Skin Contact:	No data found.
Eye Contact:	No data found.
Ingestion:	No data found.

Product Components Listed as Carcinogenic

CAS Number	Description	%Weight	Carcinogen Rating
None			No data available

Section 12 - Ecological Information

Component Ecotoxicity

Section 13 - Disposal Considerations

WASTE DISPOSAL METHOD

Disposal of Wastes: Dispose of properly in accordance with Federal, State, and Local regulations. It is the responsibility of the generator to determine at the time of disposal whether the product meets the criteria of a hazardous waste. Comply with all applicable federal, state and local regulations. Waste disposal options include landfilling solids at permitted sites. Incinerate in a chemical incinerator equipped with an afterburner and scrubber. Use registered transporters.

Contaminated Packaging: Reuse of empty drums or containers is not recommended. Employees should be advised of the potential hazards, due to residual flammable material, associated with empty containers. Dispose of all empty containers properly, in accordance with Federal, State and Local regulations.

Section 14 - Transport Information

Agency DOT IATA IMDG

Proper Shipping Name Not Regulated, Polymer, NOS Not Regulated, Polymer, NOS Not Regulated, Polymer, NOS

UN Number Packing Group

Hazard Class

Section 15 - Regulatory Information

State of California Safe drinking Water and Toxic Enforcement Act of 1986

(Proposition 65): WARNING! This product contains the following chemicals which are listed by the State of Califonia as carcinogenic or a reproductive toxin: None

SARA 313 None

US State Right-to-know Regulations

-None

Country	Regulations	All Components Listed
	EINECS	Yes
	SARA Hazard categories	No
	TSCA Inventory	Yes

Section 16 - Additional Information

HAZARDOUS MATERIAL IDENTIFICATION SYSTEM (HMIS) RATING:
